Welcome to The University of Utah’s Department of Educational Leadership and Policy. Our faculty and students come from a variety of backgrounds in both the K-12 and Higher Education arenas. Our department is committed to preparing educational leaders and engaged practitioners at all levels of the P-20 spectrum. To be certain, our students have taken positions as teacher leaders, school and district administrators, student affairs personnel, university administrators, professors, policymakers, state level leaders, and a host of other leadership roles within education. This handbook is intended to serve as an introduction to our department, as well as a resource for students enrolled in one of our various degree programs.

All students in ELP are expected to comply with University and College policies, and abide by the highest professional and ethical standards in their classes, their research endeavors, and in their respective places of work. In this regard, this handbook is intended to supplement and clarify University and College policies—not supersede them in any way.

As students in ELP, you not only represent our department, but also serve as our ambassadors in the state, the nation, and the world. Our department mission is grounded in justice, equity, and excellence. We hold ourselves to these ideals, and trust that you will learn to embody these principles as you progress in your own educational journey at the University of Utah! I wish you all the best in your academic endeavors.

Sincerely,

Yongmei Ni, Ph.D.
Professor and Chair

Graduate Student Advisory Committee

Student Advisory Committee Representatives for ELP (SAC):
Erica Rojas, Doctoral Candidate, Erica.Rojas@hsc.utah.edu
Mariana Ramiro-Gomez, Doctoral Student, mariana.ramiro@utah.edu

Student Advisory Committees (SACs) are student groups established within
departments to promote communication and interaction among students, faculty, staff,
and administrators.

The SACs were created to provide students more opportunities to provide input at the
department level. Involvement in the RPT (Retention, Promotion, and Tenure) process
affords students the opportunity to have a voice in the retention and promotion of faculty
within their department. SACs are both a social and an academic organization within
their department and as such they advance involvement opportunities, encourage
participation in departmental activities, and work together with others to build campus
community.

General Department and University Information

The Department of Educational Leadership at the University of Utah offers eight
graduate degree programs, serving a variety of student needs. With a commitment to
equity and social justice, the program faculty provide guidance to students through
coursework, practical leadership opportunities, and group and individual research
projects. This handbook is designed to serve as a guide for students in the various
programs, providing additional clarity for policies and practices. University policy
through the graduate school supersedes all department policy. If you have questions or
notice any conflicts, please contact a member of the ELP staff or faculty.

Faculty are here to support students admitted into the ELP graduate programs through
completion of their degrees. We want to see you be successful and will work with you to
help you make the most of your experience. We look forward to working with you over
the next few (or several!) years as you earn your degree and become a deeper thinker
and actor in the area of educational leadership.

In addition to the ELP faculty and staff, there are a number of resources that may be
helpful to you as you encounter questions about processes throughout your time in the
graduate program. We encourage you to seek answers on your own and work with your
advisor as you work toward completion of your program.
Important Deadlines

The University of Utah accepts graduate applications for the spring semester, summer term and fall semester. However, not all ELP programs have open enrollment for each term and deadlines shift based on each academic year.

Check individual ELP Programs for upcoming deadlines.

Prospective graduate students apply for admission through the University of Utah Apply Yourself (AY) online application system

Resources

The University of Utah has several resource offices established to assist students in Graduate School. Below is a categorized list of some of the resources available to help you navigate graduate school and to find further information that will be useful in your academic and career pursuits.

Financial Support

The following links will provide you with further information about tuition, benefits, residency requirements, and tuition benefit policies and expectations.

Masters of Education (M.Ed.) in Teacher Leadership
Program Director: Dr. Shari Fraser
shari.fraser@utah.edu

Introduction to the Program
The Teacher Leadership M.Ed. program is a four semester (30 credit hours) degree-seeking program. The program is designed as a flex based cohort with students starting the program of study each semester. Upon successful completion of the program, candidates earn a master’s degree (M.Ed.) in Educational Leadership and Policy. All courses are offered in the evening, to accommodate working professionals.

Supervisory Committee
The master's supervisory committee is arranged by the department and consists of the K12 program director, the department chair, and the director of graduate studies. The academic coordinator will enter the supervisory committee into the Graduate Tracking System for each student at the beginning of the student's third semester in the program.

Program Coursework Requirements
Students in the M.Ed. Teacher Leadership program must complete thirty (30) credit hours of coursework within the Department of Educational Leadership and Policy. The following ELP courses are required for completion:

- ELP 6250 (3) Leadership for School Improvement
- ELP 6511 (3) Leadership for Equity and Social Change
- ELP 6310 (3) Leadership in Instructional Design and Assessment
- ELP 6320 (3) Instructional Coaching
- ELP 6130 (3) Professional Learning Communities
- ELP 6010 (3) Evidence Based Decision Making
- ELP 6411 (3) Special Education Law & Policy
- ELP 6060 (3) Adult Learning Theory for Educators
- ELP 6710 (6) Fieldwork Practicum - total of six credit hours

K-12 Administrative License Option
Candidates who have successfully completed the Teacher Leadership M.Ed. program and have a valid Utah Professional Educator License might also wish to earn a K-12 administrative license. If, within a 3-year period of completing the Master’s Degree, these students wish to earn a K-12 administrative license, they have the option to reapply to the department and if accepted:

- Enroll in and complete the remaining 18 hours of required administrative licensure coursework;
- Complete a sequential series of three (3) Fieldwork Practicums for a total of 9 credit hours.
- Complete the USBE required practicum competencies in K-12 schools;
- Pass a required Administrative Licensure test (Praxis/SLLA); and
- Complete eligibility for recommendation to the Utah State Board of Education for Utah Administrative/Supervisory Licensure.
Introduction to the Program
The M.Ed. in K-12 School Administration with Administrative Licensure program is a four semester degree-seeking professional program (36 credit hours).

School Administration candidates are required to complete 24 credit hours of core leadership coursework and 12 hours of field based Practicum Seminar. In order to qualify for the K-12 administrative license, a student must also 1) complete a master's degree in educational leadership, 2) hold a valid Utah Professional Educator license, and 3) complete required fieldwork practicum in K12 schools, 4) Pass the Praxis 5412 with a score of 146 or higher.

The school administration program is designed as a flex cohort program, with students enrolling each semester and engaging in coursework and field-based practicum throughout the program. The program of coursework begins each semester, with program completion in four semesters. Students enroll in two content courses and a practicum each semester. All courses are offered in the evening to accommodate working educators.

Upon successful completion of the program, candidates earn a master's degree (M.Ed.) in Educational Leadership and Policy and are recommended to the Utah State Board of Education for approved licensure in the area of K-12 School Leadership.

Supervisory Committee
The master's supervisory committee is determined by the department and consists of the K12 program director, the department chair, and the director of graduate studies. The academic coordinator will enter the supervisory committee into the Graduate Tracking System for each student in the third semester of the program.

Program Coursework Requirements
ELP 6250 (3) Leadership for School Improvement
ELP 6511 (3) Leadership for Equity and Social Change
ELP 6120 (3) Evidence Informed Learning for Leadership
ELP 6021 (3) Systems Thinking and Student Support
ELP 6350 (3) Leadership for Teaching and Learning
ELP 6412 (3) Designing and Leading Professional Learning
ELP 6230 (3) Ethics, Law and Policy
ELP 6420 (3) Leveraging Educational Resources
ELP 6710 (12) K12 Practicum – each semester (total of 12 credit hours)
Administrative Practicum
Approved K12 school site practicums complying with departmental standards and the Utah State Board of Education competencies are required of students wishing to earn K-12 administrative licensure. The state-required learning competencies for school leadership include both elementary and secondary school administrative experience. Licensed administrators in school settings mentor interns, and the practicum experiences are supervised by the Program Supervisor of the K-12 Master’s Program.

Intern progress and mastery of professional standards is monitored and evaluated by site mentor principals, the program supervisor, course instructors, and by students themselves. These practicum experiences will provide candidates with the opportunity to apply the theories and research of school leadership theory to practice with school and educational settings.

School Leaders Licensure Assessment
The Department of Educational Leadership and Policy requires the School Leaders Licensure Assessment (SLLA 5412) for students seeking the Master of Education in K-12 School Administration with Administrative Licensure. This praxis test was developed in collaboration between the Interstate School Leaders Licensure Consortium (ISLLC) and development staff from the Teaching and Learning Division at the Educational Testing Service.

USBE Licensure Requirements
For a complete description of administrative internship requirement for licensure per the USBE, please visit the website at www.rules.utah.gov/publicat/code/r277/r277-305.htm.
Masters of Education (M.Ed.) with an Emphasis in Student Affairs  
Program Director: Dr. Sharon Aiken-Wisniewski  
sharon.aikenwisniewski@utah.edu

Introduction to the Program
The M.Ed. with an Emphasis in Student Affairs is a graduate program for individual interested in careers in that support students in navigating higher education. It is available as a full-time four semester degree-seeking professional program or as a part-time six semester experience (36 credit hours).

The M.Ed. with an emphasis in student affairs provides a broad base on which students may build and advance their careers within student affairs and higher education. The program focuses on developing scholar-practitioners that value and utilize scholarship within their practice, and leaders who emphasize and acknowledge the significance of social justice and inclusion for direction and change in higher education.

The curriculum is focused on the following learning outcomes:

Social Justice

Upon successful completion of this program, students will be able to:

1) Describe an understanding of themselves, including their social identities and their relationship to power and privilege;
2) Identify issues of institutional and structural inequities in higher education and beyond and enact strategies to address.

Scholar Practitioner

Upon successful completion of this program, students will be able to:

3) Explain the importance of being a “scholar-practitioner” to a non-student affairs colleague.
4) Apply a selected theory to their graduate assistantship, work experience, capstone, and/or internship.

Leadership

Upon successful completion of this program, students will be able to:

5) Evaluate power, privilege, politics, and participation utilized in leadership in higher education.
6) Initiate change to influence inequitable policy, process, and practice.

Supervisory Committee

The master’s supervisory committee is arranged by the department and consists of the HED program director, the department chair, and the director of graduate studies. The academic coordinator will enter the supervisory committee into the Graduate Tracking System for each student at the beginning of the second fall semester of the program.
Program Coursework Requirements
Student Affairs Administration (15 credits)
ELP 6550 (3)  Student Affairs Admin.
ELP 6520 (3)  Leadership for Social Justice in U.S. Higher Education
ELP 6610 (3)  Introduction to Student Affairs Assessment
ELP 6570 (3)  Higher Education Finance

Contexts of Higher Education (18 credits)
ELP 6620 (3)  College Student Development Theory
ELP 6560 (3)  College Student Retention Theory
ELP 6640 (3)  Special Topics: Contemporary Issues in Diversity in Higher Ed.
ELP 6470 (3)  Group or Individual Intervention in Higher Ed.
ELP 6720 (3)  Capstone Seminar
Elective in second or fourth Spring Term

Professional Skill Development (3 credits)
ELP 6711 (3)  Internship and Internship Seminar

Internships
Students in this program complete a 75-hour internship related to their area of career focus along with a three-credit internship seminar (ELP 6711). Internships are available on the University of Utah campus and in other local higher education institutions. Additional information can be found at: http://elp.utah.edu/programs/m-ed/student-affairs/internships.php.

Capstones
In addition to serving students and improving educational conditions on campuses, higher education professionals have an obligation to further the development of the field. One way to achieve this goal is through critical thinking about issues and integrating knowledge about new findings, strategies, and best practices.

The final Capstone Seminar provides students a choice between two avenues for achieving this: scholarly practitioners or scholarly researchers/writers. Examples of abstracts from final Capstone Projects can be found at this link: http://elp.utah.edu/programs/m-ed/student-affairs/capstone.php.

All students must receive a pass on their Capstone project to be eligible for degree completion.

Thesis Option
Thesis requires additional courses to explore areas of research and registration of Thesis hours for 6 credits. Students considering this option should see the M.Ed. Student Affairs Program Director in first term of program for details. The faculty advisor for supervising the thesis must be selected in first term of program to provide guidance in completing all steps of the Thesis.
Careers
Students pursue a variety of areas across student affairs, higher education, and private organizations. The list below offers a small range of options.

- Career Services
- Student Union
- Office of Equity & Diversity
- Housing & Residential Education
- Academic Advising
- Conduct in the Dean of Students Office
- Leadership & Student Involvement
- Assessment & Institutional Analysis

Some students transition to professional programs such as law or to doctoral programs for faculty role.

Graduate Assistantships
Graduate assistantships are available for students enrolled in the program full-time. Examples of areas providing graduate assistantships at the University of Utah are: A. Ray Olpin University Union, Career Services, Dean of Students/Leadership/Fraternity and Sorority Life, Lowell Bennion Community Service Center, TRIO, Veterans’ Support Center, Women’s Resource Center, and Housing & Residential Education. Westminster College and Salt Lake Community College also support graduate assistantships in areas such as recruitment and enrollment management, Residence Life, and Student Involvement.

Graduate assistantships at the University of Utah include a tuition waiver (in and out-of-state) and a stipend. Westminster College and Salt Lake Community College offer a comparable package. Students interested in applying for assistantships should note their top choices on the program application. This information will be used for the Graduate Assistantship interview process.
**K-12 Doctorate of Education (EdD) and**
**K-12 Doctorate of Education with Administrative Licensure**
**K12 Program Director: Dr. Shari Fraser**
shari.fraser@utah.edu

**Introduction to the Program**
The Doctor of Education (Ed.D) Program is designed to provide advanced preparation to individuals with experience working as administrators or educators in K12 public schools, charter schools, or related educational organizations. Based on a model of professional inquiry, the Ed.D Program emphasizes the use of theory in directing its field-based approach to problem solving. Students will study theory and research in the core domains of organization, leadership, inquiry methods, and in selected areas of specialization. They will use the knowledge gained in these areas of study to frame problems of administrative practice and to seek, critically examine, and apply information to solve problems.

**Program Coursework Requirements**
The EdD Program includes four major dimensions:

a) research and inquiry coursework,
b) the ELP core required coursework,
c) academic specializations coursework, and
d) field-based capstone project.

Throughout the program students will progress through a series of courses aimed at developing knowledge and skills needed to analyze and solve problems encountered by educational administrators and to prepare them to conduct a capstone field-based project.

**Research and Inquiry—to be taken during the first two years of study (9 credits)**
- ELP 7030 (3)  Introduction to Inquiry
- ELP 7040 (3)  Quantitative Research Methods
- ELP 7060 (3)  Qualitative Research Methods

**ELP Academic Core— to be taken during the first two years of study (12 credits)**
- ELP 7440 (3)  Education Policy
- ELP 7220 (3)  Leadership Theory
- ELP 7240 (3)  Organizational Theory
- ELP 7480 (3)  Leadership and Social Justice Theory

**Academic Specializations— to be taken during the second/third year of study (12 credits)**
These courses may include topics such as: leadership for school improvement, critical data analysis for school change, critical leadership for instructional change, action research, immigrant students and leading schools and communities, etc.

**Field-Based Capstone Project (18 credits including capstone seminar— to be completed during years 3 and 4 (if needed)**
The capstone provides students with an opportunity to apply leadership and inquiry knowledge and skills to problems of practice or policy issues. The project should focus on a timely and significant problem or policy and make a meaningful contribution in the candidate’s school, district, college, university, or other relevant organizational setting.

**Supervisory Committee Meetings, i.e., program of study, proposal defense, final defense (doctoral students only):** EdD supervisory committees consist of three faculty members, the majority of whom must be full-time (Career line or tenure line) faculty in the student’s major department. **Students should choose a supervisory committee chair and committee members no later than the middle of the second year in program.** Students will complete a capstone seminar course that supports a capstone proposal draft and future proposal defense. Students will work with their selected chair and committee to design a capstone research study over the final three semesters of the program.

*The process of forming a supervisory committee is completed by filing a Request for Supervisory Committee form with the major department (see forms section).*
Doctorate of Education (EdD) in Higher Education Administration
Advisor: Dr. Sharon Aiken-Wisniewski
sharon.aikenwisniewski@utah.edu

Introduction to Program
The Doctor of Education (Ed.D) Program is designed to provide advanced preparation to individuals with experience or currently working in higher education. Students enroll in the program having engaged in campus roles that provide experience in leadership, supervision, finance, and assessment. The curriculum, through literature, guest lectures, and original research, builds off the lived administrative experience to build the skills, values, and characteristics of a transformational leader for future roles in education. The EdD in Higher Education Administration is a doctoral program that meets the needs of working educators (Minimum of 57 credit hours).

The purpose of the Ed.D in Higher Education Administration is:

To develop social change leaders in higher education who actively engage with challenging issues of the 21st century to create equitable environments for learning.

These transformational leaders of social change are focused on:
- Serving our campus, community, state, and stakeholders to create, expand and support educational access and opportunity for diverse populations.
- Engaging with challenging issues to address inequitable conditions in society.
- Championing difficult decisions that are framed within a social justice paradigm to create equity in higher education.

These individuals approach issues, solutions, and change from:
- A lens of inquiry and evidence for decision-making.
- A focus on partnerships and collaboration to create holistic solutions.
- A frame of appreciation and respect for all members of the community.

The goal of the Ed.D in Higher Education Administration is to bridge theory and practice to create the scholar-leader required for 21st century higher education organizations.

Supervisory Committee
EdD supervisory committees consist of three faculty members, the majority of whom must be full-time (Career line or tenure line) faculty in the student’s major department. Students should choose a supervisory committee chair and committee members no later than beginning of second year in program. The process of forming a supervisory committee is completed by filing a Request for Supervisory Committee form with the major department (see forms section).

Program of Study
Theory and Practice Core (15 credits)
ELP 7480 (3) Leadership & Social Justice Theory
ELP 7490 (3) History and Philosophy of U.S. Higher Education
ELP 7545 (3)  Higher Education Administration
ELP 7590 (3)  Higher Education Finance, Budgeting and Planning
ELP 7605 (3)  Preparation for Capstone

Inquiry Core (12 credits)
ELP 7030 (3)  Introduction to Inquiry
ELP 7040 (3)  Quantitative Research Methods
ELP 7060 (3)  Qualitative Research Methods
ELP (3) Inquiry Elective

Specialization Core (9 credits)

Practicum (3 credits)

Capstone (18 Credits)

Practicum
Three credits to expand their knowledge in the field. Professional conferences can be used. Focused internships with higher education leaders. Students must enroll in ELP 7670.

Capstone
An experience that offers an opportunity to apply knowledge of inquiry, social justice, and leadership within a real world setting. Option for individual capstone or team capstone. Team capstones are initiated with a consulting project that is approved by Capstone Chair. A written document that is produced that identifies relevant scholarship within the context of the issue and supporting the solution or recommendation for a problem of practice.

Supervisory Committee Meetings, i.e., proposal defense, final defense (doctoral students only): The student interacts with supervisory committee chair as they progress through the capstone progress to arrive at the capstone defense. A majority of the committee members must be present at the capstone defense meeting, either in person or remotely. Those that cannot attend in person should send feedback to the supervisory committee chair prior to the meeting. A substitute faculty member can also be appointed if necessary.
Introduction to the Program
The Community College Leadership & Teaching Certificate (CCLT) is a graduate credential:

- Designed to provide current and aspiring community college leaders and faculty with the knowledge, skills, and experiences to be effective leaders and instructors in the diverse and complex community college context;
- Designed to develop leaders and faculty as social justice advocates who can effectively design and implement policies, practices, and learning experiences that promote equitable learning experiences and outcomes.

Benefits
The CCLT Program:

- Supports professional development and career advancement
- Accommodates working professionals through evening coursework
- Integrates applied learning experiences through the coursework and practicum
- Aligns with national community college leadership and teaching competencies
- Integrates collaborative learning experiences and networking opportunities
- Supports attendance and engagement at national conferences such as the Council for the Study of Community Colleges
- Aligns with ELP graduate programs for stackable credentials
- Engages with leaders and faculty at SLCC and community colleges around the country

Program Coursework Requirements
Core Requirements (9 credits)
- ELP 7630 (3) The American Community College
- ELP 7480 (3) Leadership, Diversity & Social Justice in K-12 & Higher Education
- ELP 7670 (3) Practicum Experience

Additional Requirements for Leadership Strand (3 credits)
- ELP 7590 (3) Higher Education Finance, Budget, and Planning

Additional Requirements for Teaching Strand (3 credits)
- CTLE 6000 (3) Teaching in Higher Education
Admissions Options – Select the one that is right for you
1. Non-degree seeking student (No access to financial aid)
   • http://admissions.utah.edu/apply/nondegree/index.php
2. Second Bachelor’s degree student (Access to financial aid)
   • http://admissions.utah.edu/apply/undergraduate/second-bachelors.php
3. Current ELP Graduate Student seeking graduate degree
   • No application necessary; enroll in appropriate CCLT courses
4. Interested in future ELP graduate degree - Visit ELP websites to learn about admissions process

Acceptable Substitutions for Current ELP Students (Sept. 10, 2017)
ELP students currently enrolled in a degree program can elect to add the CCLT Certificate to their degree. If a student makes this choice, the table below explains which CCLT Certificate courses can be substituted for courses in the degrees of M.Ed. Student Affairs, Ed.D. Higher Education Administration, and Ph.D. Students should consult with their advisor and Dr. Taylor on acceptable substitutions.

Doctorate of Philosophy (PhD)
Director of Graduate Studies: Dr. Chris Linder
chris.linder@utah.edu

Introduction to Program
Doctor of Philosophy (Ph.D.) students are expected to develop expertise in theory and research related to educational leadership and/or policy. This program is designed especially for those who seek careers as high-level administrators, university professors, researchers, or research and policy analysts in educational agencies.

Students complete course work in: educational leadership, policy, and organizations; content specialization in students in K12 or higher education, educational leadership/organizations, educational policy, or critical studies in education; research methods and apprenticeship; and independent research in the form of a dissertation.

Students complete several milestones throughout the process of earning a PhD, each of which are described in detail in the following sections. While these milestones are sequential in nature, one does not necessarily need to be complete before the next one (for example, students will choose their supervisory committee and have their programs of study approved before completing coursework). The milestones include:

- Coursework
- Selecting a Chair and Supervisory Committee
- Program of Study Meeting
- Qualifying Exam
- Dissertation Proposal
- Dissertation Defense

Faculty
Participating faculty in the Ph.D. program are highly skilled academicians who guide students to achieve their academic goals. The ELP department has many excellent faculty members in both K-12 and higher education. Profiles of the faculty, along with copies of their curriculum vitae are available on the department website.

Initial Advisor
Upon enrollment in the program, students are assigned an advisor who works with them for the first two years of their program. During the second or third year of study, students identify a supervisory committee chair and committee members who will approve the student’s planned program of study which must be submitted to the Graduate School. Students are allowed to individually tailor the selection of courses to meet their individual interests and career goals. Typically, a Ph.D. student's program of study will include 68 semester hours or more of total credit.
Coursework
Program of Study
ELP Core (12 credits) – To be taken in the first year or two of a student’s program
ELP 7220 (3) Leadership Theory
ELP 7240 (3) Organizational Theory
ELP 7480 (3) Leadership, Diversity, and Social Justice in Education
ELP 7440 (3) Education Policy

Content Specialization (15 credits) – 6 from outside of the department or college
TBD Students in K12 or higher education
TBD Educational leadership/organizations
TBD Educational policy
TBD Critical studies in education

Required Research Course Work (12 credits)
ELP 7960 (3) Introduction to Inquiry
ELP 7060 (3) Qualitative Methods I
ELP 7040 (3) Quantitative Methods I
ELP 7600 (3) Dissertation Proposal Writing Seminar

Specialization Sequence (9 or more credits)
TBD Qualitative Methods
TBD Quantitative Methods
TBD Mixed Methods

Research Apprenticeship (6 credits)
ELP 7660 Research practicum

Independent Research (14 credits min) – with Supervisory Committee Chair
ELP 7970 Thesis Research: Doctoral

Research Apprenticeship Courses
The purpose of the Research Apprenticeship Course (RAC) is to increase student/faculty and student/student collaboration on a research project that will provide the intensive mentoring and immersion experience in the research process. This experience could be in the form of a team of students working with a faculty member on a particular project that is large and on-going with respect to literature review, data collection and analysis related to the end goals of the study or a group of students providing editorial review work and learning about the publication process for an ELP faculty member who is an editor of a journal. One result of the RAC could be in the form of a conference presentation for the student or a publishable research paper with the RAC faculty as an example. Ideally, the RAC should be taken toward the end of the student’s course work and before the qualifying exams.
**Residency Requirement.** At least one year (i.e., two consecutive semesters) of the doctoral program must be spent in full-time academic work at the University of Utah. When a student proceeds directly from a master’s degree to a Ph.D. degree with no break in the program of study (except for authorized leaves of absence). The residency requirement may be fulfilled at any time during the course of study.

A full load is nine credit hours. Three hours of Thesis Research: Ph.D. (course number 7970) is also considered a full load after the residency requirement is fulfilled. The Graduate Council may approve departmental or programmatic exceptions to the minimum residency requirements and proposals for new programs or academic offerings using distance-learning technologies and/or off-campus sites, as provided by Graduate School policy. This does not refer to or fulfill State Residency Requirements.

**Supervisory Committee**

*Students should choose a supervisory committee chair and committee members no later than the end of their second year.* PhD supervisory committees consist of five faculty members, the majority of whom must be tenure-line faculty in the student’s major department. One member of the supervisory committee must be from another department. The process of forming a supervisory committee is completed by filing a Request for Supervisory Committee form with the major department (see forms section).

The supervisory committee is responsible for approving the student’s academic program, preparing and judging the qualifying examinations subject to departmental policy, approving the thesis or dissertation subject, reading and approving the thesis or dissertation, and administering and judging the final oral examination (thesis or dissertation defense). The chair of the supervisory committee directs the student’s research and writing of the thesis or dissertation. The final oral examination may be chaired by any member of the supervisory committee consistent with departmental policy. If a graduate student’s preliminary work is deficient, the supervisory committee may require supplementary undergraduate courses for which no graduate credit is granted. Decisions concerning program requirements, examinations, and the thesis or dissertation are made by majority vote of the supervisory committee.

All University of Utah faculty members including tenure-line, career-line, adjunct, visiting, and emeritus are eligible to serve as supervisory committee members. The faculty member must hold an academic or professional doctorate, the terminal degree in the relevant field, and/or must have demonstrated competence to do research and scholarly or artistic work in the student’s general field. Persons not from the University of Utah may also serve as committee members upon approval of the dean of The Graduate School (a vita for the proposed committee members must accompany the request). Committee chairs must be selected from tenure-line faculty. Immediate family members are not eligible to serve on a student’s supervisory committee.
Program of Study Meeting
The Program of Study meeting provides an opportunity for students to engage with their committee about their trajectory as a PhD student. The Program of Study Meeting takes place once a student has identified a supervisory committee chair (advisor). Students will provide an overview of the courses already taken along with their proposed remaining courses. Additionally, students will provide their committee with a preliminary review of their research interests, allowing committee members to review the student’s entire plan and to make recommendations of courses or other opportunities that may enhance the students’ ability to engage in meaningful research related to their topic. Materials for an example Program of Study Meeting are included in the appendix of this handbook.

Qualifying Exam
ELP PhD students complete a qualifying exam at the end of their coursework. The qualifying exam is intended to demonstrate students’ mastery of research methods and a subject specific area within the field of educational leadership or policy that reflects the focus of the student’s independent research (i.e., educational policy as it relates to access; college student retention; principal leadership and its impact on instructional delivery). The exam also meets the Graduate School requirement of completing a comprehensive exam. Successful passing of the qualifying exam results in students’ advancement to doctoral candidacy. Students must complete the qualifying exam within 12 months of completing their coursework. The date of the qualifying exam is set by the student’s supervisory committee chair in consultation with the student to ensure that the exam is taken within the time limits.

The final product of the exam demonstrates the student’s ability to engage the literature in the reading list, to critically analyze the literature, and to apply their knowledge of research methods to the problems suggested by the literature. Additional information about the qualifying exam format may be found in the PhD Supplement.

Evaluating the Exam
When the student has completed and turned in their exam, it is read and evaluated by the selected faculty readers. This process will be completed within three (3) weeks of the exam’s completion date. Faculty may evaluate the exam as: pass, revise and resubmit, or fail.

Students who pass the exam are advanced to doctoral candidacy. Students who fail the exam or who must revise and resubmit are responsible for working with their committees to determine what revisions are necessary to pass the exam. The revision or retake must take place by the end of the semester following the one in which the student takes the exam for the first time. Students will be allowed to retake or revise their exam one time, consistent with departmental and University policy as found on the Graduate School’s website (http://gradschool.utah.edu/graduate-catalog/degree-requirements/—An examination or parts of an examination may be repeated only once and only at the discretion of the student’s supervisory committee). Students who fail to pass the exam revision or retake will not be advanced to doctoral candidacy.
**Dissertation Process**

Students enrolled in the PhD program must complete a dissertation proposal and final dissertation. Each student's experience of the dissertation will vary, depending on their research questions and methodology. Students should work closely with their advisors on the specific processes associated with their dissertation and additional information on suggested guidelines may be found in the PhD Supplement.

**PhD Review Points**

Ph.D. students are reviewed at the following points of their program:

A. **Formative Review**: Conducted by the Director of Graduate Studies with the assistance of the entire faculty this review is held at the end of the first year of study.

B. **Qualifying Exam**: At or near the end of course-work, Ph.D. students must take a qualifying exam (which is evaluated by the student's supervisory committee) to assess if the student is eligible for advancement to doctoral candidacy.

C. **Dissertation Proposal Defense**: Following advancement to candidacy, a student must successfully defend the dissertation research proposal to his/her supervisory committee to proceed with his/her independent research.

D. **Dissertation Defense**: At the completion of the dissertation research and writing, a student must successfully defend the dissertation study to his/her supervisory committee. The final oral defense must be passed at least one month before graduation, following the submission of a student's dissertation to the supervisory committee.

Once a student has successfully passed their final dissertation defense, they are not required to register for classes or pay tuition in any future semesters, even if they are still working with the thesis office.

**Supervisory Committee Meetings, i.e., program of study, proposal defense, final defense (doctoral students only)**: A majority of the committee members must be present at the meeting, either in person or remotely. Those that cannot attend in person should send feedback to the supervisory committee chair prior to the meeting. A substitute faculty member can also be appointed if necessary.
Educational Leadership and Policy Department Policies

Timelines and Incomplete Policies
By Graduate School policy, all work for master’s degrees must be completed within four consecutive academic years and work for doctoral degrees, seven years.

Requests to exceed established time limits must be recommended by a candidate’s supervisory committee and approved by the departmental Director of Graduate Studies and the Dean of the Graduate School. Students whose studies have been interrupted for long periods of time and who have been granted extended time to complete their degrees may be required to complete additional courses, to pass examinations, or otherwise to demonstrate that they are current in their field. Candidates are required to maintain a 3.0 or higher GPA in coursework. No graded work of C- (minus) or lower is acceptable toward a degree or the administrative license.

A. Academic Probation - Effective August 14, 2003, a student earning less than a 3.00 cumulative GPA in the ELP graduate program in which they are enrolled will be put on academic probation for the next two consecutive semesters of enrollment and must maintain a 3.00 average during that time. If at the end of this probationary period the student does not have a cumulative 3.00 GPA in his/her program of study (i.e., courses associated with the completion/fulfillment of the degree), the student will be dismissed from the academic program.

B. Student Incompletes - Students enrolled in the Departmental programs who accrue more than four Incompletes (I) on their transcript at any given time in their program of study or who accrue more than three Incompletes in a given year (defined as enrollment for three consecutive semesters) or whose transcript reflects an habitual pattern of Incompletes, will not be allowed to register for course-work in the Department until these Incompletes have been addressed (i.e., removed from their transcript, and a grade assigned).

1) If faculty resources are needed or requested by the student to address these Incompletes or if a student must register in order to maintain his/her status with the Graduate School or receive financial aid, then the student will be required to enroll in a minimum of 3 semester hours of faculty consultation (ELP 6980/7980) in conjunction with the faculty associated with the course(s) in question.

2) Enrollment in ELP 6980/7980 will be allowed for no more than one calendar year.

3) Decisions regarding the number of hours that a student will be required to enroll in ELP 6980/7980 beyond this minimum will be determined by the Director of Graduate studies or Department Chair in conjunction with the faculty-member supervising the student and based on the number of consultation hours required. However, if a student chooses not to enroll for a given semester in order to address his/her Incompletes, s/he will not be allowed to use faculty or university resources.
Off-Cycle Admissions and Changing Degrees Policy  
(Approved May 1, 2017)

The Department of Educational Leadership and Policy does not consider off-cycle admission cases except for the following reasons:

- **Students who are discontinued by the University because they forgot to register for a semester or take a leave of absence.** These students are allowed to reapply upon the approval of their supervisory committee chair and the director of graduate studies. They will not be required to submit new written essays or letters of recommendation.

- **Transfer students from another department within the College of Education or University of Utah and transfer students from another university that are relocating to Salt Lake City.** For these situations, the admissions committee (for that year) and the director of graduate studies will discuss the case and make a decision on whether to allow the transfer student to apply off-cycle or not. If the students are allowed to apply off-cycle, the application will be reviewed by the current admissions committee and the director of graduate studies, and they will then make a recommendation to the entire faculty and the department chair will make the final decision on whether to admit or not.

- **Students who decide at any point that they want to change degree programs** will have to formally re-apply to the Department and the specific program. It is the responsibility of the student seeking to change programs to discuss the details of the process (such as reviewing the personal statement or if new letters of recommendation are needed or making copies of the previous application file, application fees if warranted, etc) with their faculty advisor, the Director of Graduate Studies and the administrative staff person in charge of processing applications. The admissions committee will review the student application along with all other applicants for the official fall-cycle admissions only. If accepted to the alternate degree program, they will be subject to the requirements for the new degree program. In addition, the student making the change must provide a letter of support from their faculty advisor and the student must be in good academic standing with course work, GPA, and completed assignments.
**Nonmatriculated Students**

Students who do not qualify for admission to The Graduate School or non-degree-seeking students may enroll in graduate-level classes on a nonmatriculated basis. (Some graduate-level courses, however, are restricted because of full enrollment, limited space, prerequisites, etc.) When such students want to be considered for matriculated graduate status, they must apply formally through the Admissions Office. Upon recommendation from the major department and approval by the Graduate Admission Committee, the student may qualify for admission. Grades received during nonmatriculated status do not guarantee admission into a graduate program. International students on visas are not eligible for nonmatriculated status.

Credits earned by nonmatriculated students may or may not apply to a graduate degree program. Graduate programs are designed and approved by faculty committees assigned to supervise each graduate student. Decisions on accepting course credit are made initially by these supervisory committees. Only nine semester hours of nonmatriculated credit, taken no more than three years prior to the date of the request for approval to the Graduate School, can be applied toward a graduate degree. Credit for these hours is granted only if a grade of B or better was earned in the specified courses. Any exception to these requirements must be requested by the department chair or supervisory committee chair and approved by the dean of The Graduate School.

Any requests for exceptions to these general admission policies should be directed in writing to the Graduate Admissions Committee by the respective college or department.
Student Progress Review and Dismissal Policy
Approved by ELP Faculty as of 3/08/2017
Approved by Graduate School 3/25/2017

The following ELP dismissal policies are in concert with the University of Utah policies regarding student dismissal. For further information regarding university policies, please see the following: http://regulations.utah.edu/academics/6-400.php

I. The ELP department will conduct annual academic progress reviews of all graduate students enrolled in degree-seeking programs. A written copy of the review will be given to the student and placed in the student's academic file. The progress review will include: a) a student self-report and assessment of academic progress; b) a review prepared by the advisor and at least one other faculty member to focus on an assessment of degree progress and student strengths and weaknesses--a copy of this written review is given to the student; and c) an opportunity for the student to discuss this review in person.

II. MASTERS PROGRAMS
   A. Academic Expectations
      1. M.Ed. in Student Affairs
         The ELP Faculty – Higher Education have established the following standards and expectations for successful progress in this degree program:
         • No grade below a C- will be accepted for completion of the degree.
         • The student may repeat the course two times if course is available within a 4-year time frame for program completion.
         • The minimum cumulative grade point average of a 3.0 is required for completion of the degree.
         • Students must make acceptable progress toward the degree as determined by the program director in consultation with the Director of Graduate Studies.
         • The degree requirements must be completed in 4 years.
         • The culminating experience is the Capstone course (ELP 6720) that is an in-person experience during the last semester of enrollment. In this course, students write either a research-scholar or research-practitioner paper that is reviewed for pass by 2 ELP Higher Education Program faculty members. The Capstone paper must receive a pass for successful completion of the course and degree program.

Students are required to check-in with the Program Director every term on progress towards successful completion. Students receive feedback after the first year of matriculated enrollment on progress from the Program Director. If the above standards and expectations
are not being met, the Program Director will establish a written plan to meet these standards.

2. **M.Ed Students in K12**
   The ELP Department has established the following standards and expectations for successful progress in the K12 M.Ed. degree programs (Teacher Leadership and K12 School Administration):
   - A grade below C- is not accepted for credit toward a graduate degree. Students may repeat a course two times if the course is available within the 4-year time frame for program completion.
   - Candidates for graduate degrees are required to maintain a 3.0 or higher GPA in course work counted toward the degree. Students who fall below a 3.0 cumulative GPA will be placed on academic probation. Students will be granted two consecutive semesters to bring GPA to 3.0 or higher.
   - Students who receive more than one incomplete in a given semester will not be allowed to register for subsequent classes the next term until the previous incomplete are cleared.
   - Incomplete grades may be given when special circumstances intervene to prevent the timely completion of coursework. The work should be completed as expeditiously as possible, but no later than one year after the course was taken. Failure to complete will result in a grade of ‘E’.
   - Incomplete grades will be reviewed by the Director of Graduate Studies and the Program Director on a case-by-case basis to determine student status toward degree completion.
   - Students must make acceptable progress toward the degree as determined by the program director in consultation with the Director of Graduate Studies.

B. **Capstone Requirement**
   All graduate students enrolled in masters degree programs must complete the capstone requirement specific to the program in which enrolled.

C. **Time Limit**
   Academic requirements for each M.Ed. degree must be completed within four consecutive academic years.
   A student who fails to complete his/her degree within the required time period may petition his/her program advisor for a one-time extension or leave of absence. Petitions are evaluated by the Director of Graduate Studies and if approved, forwarded to the Dean of the Graduate School. Petitions must contain: 1) a rationale for the time extension; 2) an explanation of what requirements need to be completed; 3) a descriptive timeline and final date for completion of all degree requirements. Extensions and/or leaves of
absence are granted in rare cases and may only be granted for a total of one academic year (fall/spring).

D. Leave of Absence
A student who wishes to discontinue enrollment for one or more semesters (other than summer term) must timely file a request for leave of absence form with the Director of Graduate Studies. Before being forwarded to the Graduate Records Office for approval by the Dean of the Graduate School, the form must be approved by the program advisor and/or the department chair. The form must be submitted before the last day of classes prior to the semester a leave of absence is requested. A leave of absence can only be requested for a total of one academic year (fall/spring). The student must be in good academic standing and it will not be counted against the student’s time limit for program completion. Students cannot file a retroactive request for leave of absence. The leave of absence has to be approved by the Director of Graduate Studies and the Program Director.

E. Dismissal
Students in the M.Ed programs must meet all of the academic expectations set forth above and make sufficient progress towards successful degree completion. If the above standards and expectations are not being met, students will be informed in writing of their academic deficiencies. If those deficiencies are not corrected, the Director of Graduate Studies may recommend dismissal from the program. Students may also be dismissed for behavioral and/or academic misconduct. Dismissals, including appeals, shall be processed according to procedures outlined in the “Code of Student Rights and Responsibilities.”
(http://regulations.utah.edu/academics/6-400.php)
II. Ed.D. PROGRAMS

A. Academic Expectations

- A grade below C- is not accepted for credit toward a graduate degree.
- Candidates for graduate degrees are required to maintain a 3.0 or higher GPA in course work counted toward the degree. Students who fall below a 3.0 cumulative GPA will be placed on academic probation. Students will be granted two consecutive semesters to bring GPA to 3.0 or higher.
- Students who receive more than one incomplete in a given semester will not be allowed to register for subsequent classes the next term until the previous incompletes are cleared.
- Reports of ‘credit/no credit’ and ‘audit’ are not acceptable for a course to count toward student’s program of study.
- Incomplete grades will be reviewed by the Director of Graduate Studies and the Program Director on a case-by-case basis to determine student status toward degree completion.
- Students must make acceptable progress toward the degree as determined by the program director in consultation with the Director of Graduate Studies.
- Incomplete grades may be given when special circumstances intervene to prevent the timely completion of coursework. The work should be completed as required below. Failure to complete course work within one year after the course was taken will result in a grade of ‘E’.
- Students must maintain satisfactory progress toward the ELP EdD degree as described below.

B. Graduate Advising and Review

Students should check-in with their assigned advisor or the Graduate Program Director each semester on progress towards successful degree completion. Students receive written feedback on academic progress after the first year of matriculated enrollment on progress from the Director of Graduate Studies. The purpose of the review is to assess the overall program of each student in the program and to identify means by which the faculty can assist each student to achieve success in the program.

Students are required to have selected a committee chair and committee members for the Capstone prior to summer of year two (excluding leaves of absence).

C. Time Limit

All requirements for the entire program of the Ed.D degree must be completed within seven consecutive years.

A student who fails to complete his/her degree within the required time period may petition his/her program advisor for a one-time extension. Petitions are evaluated by the Director of Graduate Studies and if approved, forwarded to the Dean of the Graduate School. Petitions must contain: 1) a rationale for the time
extension; 2) an explanation of what requirements need to be completed; 3) a
descriptive timeline and final date for completion of all degree requirements.
An extension can only be granted for a total of one academic year (fall/spring).

D. Leave of Absence
Students must be continuously enrolled (meaning Fall/Spring) to remain in
good status with the Graduate School. If a student fails to register and does not
timely request a leave of absence, the student will have to apply to the graduate
school and department for re-admission. Students cannot file a retroactive
request for leave of absence.
Students who choose to discontinue their studies for one or more semesters
(other than summer term) must timely file a request for leave of absence form
with the Director of Graduate Studies. Before being forwarded to the Graduate
Records Office for approval by the Dean of the Graduate School, the form must
be approved by the supervisory committee chair and/or the department chair.
The form must be submitted before the last day of classes prior to the semester
you are requesting a leave of absence.

A leave of absence can only be requested for no more than a total of one
academic year (fall/spring) or two semesters. Time periods set forth in this
policy will be adjusted for the additional extra one year for an approved leave of
absence.

E. Dismissal
Students in the Doctoral program must meet all of the academic expectations set
forth above and make sufficient progress towards successful degree completion.
If the above standards and expectations are not being met, students will be
informed in writing of their academic deficiencies and will be referred to the
department chair in consultation with his/her advisor for review and
consideration. This review will be done on a case by case basis; if it is
determined that the student should be given the opportunity to meet the
Department and advisor academic requirements toward degree completion, this
will be detailed in writing with specific steps and timeline for completion and
spelled out in a formal letter of agreement. If the student completes this phase,
then they will back in good standing to proceed toward degree. If the
requirements are not met by the deadline set in the timeline agreement, the
student case will be reviewed again by the Department chair in consultation with
the faculty advisor of the student and the DGS. After this review, the student’s
status in the Department will be a recommendation of dismissal from the doctoral
program. A student may reapply for re-admission once they are dismissed, but
there is no guarantee of acceptance, and the student would have to re-take all
classes and program requirements toward degree completion. These policies in
no way supersede or are a substitute for regulations of the Graduate School.
Students may also be dismissed for behavioral and/or academic misconduct.
Dismissals, including appeals, shall be processed according to procedures
outlined in the “Code of Student Rights and Responsibilities.”
(http://regulations.utah.edu/academics/6-400.php).
III. Ph.D. PROGRAM

A. Academic Expectations
   In order maintain satisfactory progress toward an ELP Ph.D. degree, students are required to meet the following minimum criteria:
   - Complete their degree within 7 years of admission to the program.
   - Secure and maintain regular contact with a faculty advisor in the Department who supervises the student's studies in ELP.
   - Maintain an over-all grade point average of at least 3.0 in graduate courses completed at the University of Utah for credit toward the degree. If the cumulative GPA falls below a 3.0, the student will be placed on academic probation for the next two consecutive semesters of enrollment and must maintain a 3.00 average during that time. If at the end of this probationary period the student does not have a cumulative 3.00 GPA in his/her program of study (i.e., courses associated with the completion/fulfillment of the degree), the student will be dismissed from the academic program. Nothing below a C- is accepted for graduate credit.

B. Timely Complete Courses
   - An approved incomplete may be given when special circumstances intervene to prevent the timely completion of coursework. The work should be completed as expeditiously as possible, but no later than one year after the course was taken. Failure to complete will result in a grade of ‘E’.
   - Incomplete grades will be reviewed by the Director of Graduate Studies on a case-by-case basis to determine student status toward degree completion.
   - Students who receive more than one incomplete in a given semester will not be allowed to register the next semester until the previous incompletes are cleared.

C. Timely Fulfillment of Degree Requirements
   - Students must make acceptable progress toward the degree as determined by the Director of Graduate Studies.
   - Complete an approved plan of study formal hearing by the end of the student’s third semester of graduate study.
   - Pass the comprehensive Qualifying Examination within the equivalent of three years of full-time study or four years part-time study after admission to the Ph.D. program. Students will have a maximum of two opportunities to pass the Qualifying Examination.
   - Pass the dissertation proposal defense examination within 7 years after formal admission to the Ph.D. program. Students will have a maximum of two opportunities to pass their proposal defense examination.

Any student who fails to take either the Qualifying Examination or the final dissertation defense examination within the time limits suggested will, unless
granted an extension, be declared "inactive." An inactive student is not eligible for any examination or for the degree until his/her program of studies has been reviewed and approved by the dissertation committee. The purpose of the review is to determine: whether the student should seek re-submission to doctoral study, whether additional course work may be necessary, and/or whether the thesis proposal or thesis remains acceptable.

D. Graduate Advising and Review
Students should check-in with their assigned advisor or the Graduate Program Director each semester on progress towards successful degree completion.
Students receive written feedback on academic progress after the first year of matriculated enrollment on progress from the Director of Graduate Studies. The purpose of the review is to assess the overall program of each student in the program and to identify means by which the faculty can assist each student to achieve success in the program.
Students are required to have selected a committee chair and committee members for the Qualifying Exam no later than fall of Year 2 (excluding leaves of absence).

E. Time Limit
All requirements for the Ph.D. degree must be completed within seven consecutive years.
A student who fails to complete his/her degree within the required time period may petition his/her program advisor for a one-time extension. Petitions are evaluated by the Director of Graduate Studies and if approved, forwarded to the Dean of the Graduate School. Petitions must contain: 1) a rationale for the time extension; 2) an explanation of what requirements need to be completed; 3) a descriptive timeline and final date for completion of all degree requirements.
An extension can only be granted for a total of one academic year (fall/spring).

F. Leave of Absence
Students must be continuously enrolled (meaning Fall/Spring) to remain in good status with the Graduate School. If a student fails to register and does not request a leave of absence, the student will have to apply to the graduate school and department for re-admission. Students cannot file a retroactive request for leave of absence.
Students who choose to discontinue their studies for one or more semesters (other than summer term) must file a request for leave of absence form with the Director of Graduate Studies. Before being forwarded to the Graduate Records Office for approval by the Dean of the Graduate School, the form must be approved by the supervisory committee chair and/or the department chair. The form must be submitted before the last day of classes prior to the semester the student is requesting a leave of absence.
A leave of absence can only be requested once during a doctoral program and only for a total of one academic year (fall/spring). Time periods set forth in this policy will be adjusted for the additional extra one year for an approved leave of absence.

G. Dismissal
Students in the PhD program must meet all of the academic expectations set forth above and make sufficient progress towards successful degree completion. If the above standards and expectations are not met, students will be informed in writing of their academic deficiencies and will be referred to the department chair in consultation with their advisor for review and consideration.
This review will be done on a case by case basis; if it is determined that the student should be given the opportunity to meet the Department and advisor academic requirements toward degree completion, this will be detailed in writing with specific steps and timeline for completion and spelled out in a formal letter of agreement. If the student completes this phase, then they will back in good standing to proceed toward degree. If the requirements are not met by the deadline set in the timeline agreement, the student’s case will be reviewed again by the Department chair in consultation with the faculty advisor of the student and the DGS. After this review, the student’s status in the Department will be a recommendation of dismissal from the doctoral program.
A student may re-apply for re-admission once they are dismissed, but there is no guarantee of acceptance, and the student would have to re-take all classes and program requirements toward degree completion. These policies in no way supersede or are a substitute for regulations of the Graduate School.
Students may also be dismissed for behavioral and/or academic misconduct. Dismissals, including appeals, shall be processed according to procedures outlined in the “Code of Student Rights and Responsibilities.”

Professional Associations
Students are encouraged to pursue membership in professional associations that can add to their growth and development. The following are recommended state and national associations.

National Associations:

American Educational Research Association (AERA)
www.aera.net

Association of College and University Housing Officers – International (ACUHO-I)
www.achho-i.org

Association for Orientation*Transition*Retention in Higher Education (NODA)
www.nodaweb.org

Association of Supervision and Curriculum Development (ASCD)
www.ascd.org

College Student Educator International (ACPA)
www.myacpa.org

The Global Community for Academic Advising (NACADA)
www.nacada.ksu.edu

Student Affairs Administrators in Higher Education (NASPA)
www.naspa.org

University Council for Educational Administration (UEA)
www.ueea.org

Utah Associations:

Utah Association of Elementary School Principals (UAESP)
www.usoe.k12.ut.us/principal/UAESP/Site%20index.htm

Utah Association for Secondary School Principals (UASSP)
www.usoe.k12.ut.us/principal/uassp.htm

Utah Association of Supervision and Curriculum Development (UASCD)
www.ascd.org
Research Policies and Training
ELP follows all University guidelines for IRB submissions and research components and expectations. Please see the IRB website for additional information

IRB: https://irb.utah.edu/

Research Education provides free professional development opportunities for all faculty, staff, postdoctoral scholars and members of the University research community.

Research Administration Training (RATS):
